## How to certify your **Qualification** or **Degree**

Documents that are certified incorrectly will not be accepted, and this may cause a delay in your application to register. Follow the below instruction to correctly certify your qualification or degree. You may wish to present this instruction to the person certifying your document.

Present the original document and a copy to a certifier who must be an independent person other than the applicant, such as a solicitor, An Garda Síochána, a Peace Commissioner, or a Commissioner for Oaths.

The certifier must confirm that the original degree was produced to them by the degree owner, that they have compared the copy with the original degree, and that they are satisfied that it is a true copy.

The copy must then be signed, dated and stamped by the certifier.

Certification is then written onto the copy by the certifier.

I hereby certify that the within degree has been compared with the original document, as produced to me on 13/05/2020 by <u>Joseph</u> <u>Bloggs</u>, and is a true copy

## DEGREE CERTIFICATE co clare, 13/00/202 IN VETERINARY MEDICINE Signed Scott Through Solution S
